GTA Juniors : Part of Canada’s Present & Future (Part 6)
“ Spotlight “ on Nikolay Noritsyn !

Introduction

This is the sixth article in the series highlighting GTA Juniors. Today we review the chess career of 10 year old Nikolay Noritsyn, and 4 of his games.

Nikolay’s Progress and Successes

Nikolay will be 11 years old on May 28th this year. He started to play chess in his country of birth, the region of Kaliningrad, Russia, when he was only 6 years old.

He and his family moved to Israel in 1997, shortly after his 6th birthday. In Israel, he played in a very strong club in an area near to Tel Aviv (it is the club where well-known Israeli GM Boris Gelfand [see reference to him below] played, and some other GM’s). He played his first rated tournaments in Israel when 9 years of age, in the Under 10 years old league. In fact he was the highest rated in the league, but due to some unfortunate games, came second in the standings (still no mean feat). He was slated to play for Israel in the European Youth CC (Under 10 years old), but his family came to Canada, via a visit to Russia to relatives, in December, 2001, and so that dream of Nikolay’s remained unfulfilled. You will see one of his games played during his stopover visit back to Russia, on the way to Canada.

In Canada, he got his first provisional rating from one of the Dutton Chess Active tournaments. He is now active-rated at 1925, the middle of the A-class (based on 12 games) ! But those who watched his games saw him clearly winning a number of games, which he lost by oversight near the end in the time scrambles. Many feel that this rating is perhaps low, and will quickly climb. Also, he played some stiff opposition in the Actives. Perhaps, too, he is still getting his confidence, playing in Canada

. In the regular rating he has done better – he started out with a middle expert ranking after 5 games. It was 2119, and he is currently rated at 2070, after the 2002 Toronto Class Tournament this month.

Nikolay, and his younger sister, Elizabeth, have joined the Dutton CC. Nikolay has also decided to play in the Dutton Chess Malcolm Sim, 10 player, Round robin tournament, Expert Section. There is a registration fee, and \$ prizes. This is played on 9 consecutive Wednesdays, at the DCC (with one week off in this school break week). This is a wonderful tournament for stronger players such as Nikolay. Elizabeth is playing in the regular DCC club swiss.

[Political aside : The Malcolm Sim tournament has attracted the stronger players, such as Nikolay, away from the regular club swiss tournaments (Nikolay was registered in the regular swiss, and withdrew to play in the Malcolm Sim). These “ club “ tournaments are played on Thursdays here at SCC, and on Wednesdays at DCC . It does seem, though, that we are less affected than DCC, because we have mostly “ club “ players, and a number of our members find it fun to play both the Wed. Malcom Sim or DCC , and then the Thurs. SCC club swiss. Thus there are less strong players for middle and lower-ranked players to play against in the early rounds of the swiss. Is there an answer to this ? Can both high – rated players, and lower-rated players both be satisfied at the same time ? Tough question : end of “ aside “ !!].

We wish Nikolay luck in keeping up his expert rating, and one day, pushing it up into the Master (2200 and over) Class.

Nikolay is now ranked # 1 in the list of top juniors (mixed) in Canada (Under 12 years old). If he would play in the Canadian CYCC, and come first, he could represent Canada as the top player on the Under 12 years old team, which goes to the island of Crete, Greece, we believe, to play in the FIDE World Youth Chess Festival championships. So though he missed the European YCC, maybe he has a chance now to go to the World YCC. Also, because of his age, he will also be in the Under 12 years old section next year ! (have to be 11 years old at 12:00 AM, January 1, 2003).

But he will still have to win. And he will be given strong opposition by Irakli Vadachkoriya (# 2 – 1918 : see SCTCN&V Issue # 13), and Raja Panjwani (# 3 – 1886).

Congratulations Nikolay, and we look forward to seeing you rise up through the Expert class !!

On With the Games !

[**Note** :

SCTCN&V, as a service to its readers, attaches to the cover e-mail accompanying this newsletter:

1. the annotated games in the text of this newsletter, in “ .pgn ” database format (this Issue, NikolayAnn.pgn) ! There may be minor variations, due to later newsletter text amendments. You need only open the attachment, and spend a few minutes clicking through these interesting junior games, and the full annotations ! We make your life easier. Enjoy !

2. a second database (Nikolay.pgn). It contains Nikolay’s games, but unannotated.

The main purpose of this is that some readers prefer to first play the games over unannotated, and to annotate them themselves. Then they look at the database annotations (human & computer).

The second reason we do this is to make the games easily available to those who may not have a chess program that uses a .pgn database, but do have a “ chess game reader “ (many are free off the internet). Annotations are a problem for “ readers “, unless they are properly set up in the database (or in the main newsletter text). And different readers have different requirements. So, for those of you who only have “ readers “, you will be able to enter and play over the unannotated game, following the annotations set out in the main text of the newsletter !! This gets those readers, with “ readers “, part way home anyway. We have some techies volunteering time to the newsletter, to see if we can find an acceptable way of getting those of you with only “ readers “, the annotations as well. Stay posted... but in the meantime, you have the main game to play over !!

P.S. : SCTCN&V Junior Database - we have the database of all junior games that have appeared in our series, since Jan. 1, 2002, annotated, in .pgn format. Simply contact the editor by e-mail, and request it if you would like it sent to you.]

C44: Ponziani Opening and Scotch Gambit

This is the Bd. # 1 game in the fourth round, in the Under 2100 section, to see who would be leading going into the final fifth round that afternoon. It's a positional battle on the validity of an advanced, passed center P, with a tactical fireworks ending.

Backgrounder

This is an SCTCN&V series on the top GTA juniors, such as Nikolay (We have previously featured Alina Sviridovitch, Hazel Smith, David Hier, Shiyam Thavandiran and Irakli Vadachkoriya). Unfortunately, we can only “ spotlight “ so many juniors in our series – some other deserving ones may not be reached. But we hope the highlighting of our GTA junior talent will encourage all juniors in the GTA to love the game, and continue to improve. We hope they all, and our adult readers, enjoy the series.

We are giving only a very short personal resume of the junior’s accomplishments. We prefer to let their games speak for them ! We’ve tried to choose an interesting collection of 4 games, that show their style, positional ability, tactical ability, etc.. And it shows the maturity of our juniors, such as Nikolay, that they consent on occasion to have us use a game they LOST, when they had good wins to offer. They understand that a “ lost “ game is not necessarily by any means one of their “ bad “ games. And they agree in order to give the readers entertaining games to play over.

We have tried to limit the annotations, because of the nature of the newsletter, not too successfully, to about 15 key points in the game. We make no pretense to GM analysis. Yours truly (computer-enhanced), the odd volunteer, some juniors, some juniors’ victims, are merely annotating to make the games a bit more interesting reading; it is more to highlight something about the junior’s style, rather than to be the last word on theoretical analysis of the position (though the annotations are of good quality ; we think you will notice this if you play the annotation lines over in the games database accompanying this newsletter; you might even pair off our human/computer annotations against you and your computer’s best efforts).

We hope you are enjoying our line-up of junior games. We hope our series contributes to GTA juniors’ enjoyment of chess, and provides some encouragement for them to continue to improve their chess.

Cohen Takes Us to the Chess Movies

Movie Review #2

Written and Copyright 2002 by David Cohen

(Organizer of the 2001 Can. Women’s Closed Championship, and former CFC Women’s Coordinator)

The Great Chess Movie

1982

Available: Toronto Public Library

This Canadian documentary from the National Film Board, directed by Gilles Carle and Canadian International Master Camille Coudari, has a high Canadian content. Coudari frequently appears on screen to explain various chess topics and to present his ideas on chess and chess players. Among those interviewed are Canadian Champion International Master Igor Ivanov, and McGill University Professor Monty Newborn. Several top Canadian players appear on-screen for a few seconds each.

The movie is a historical record of the game of chess. The story of chess is narrated on screen. Several views of the chess world are presented. Chess topics

are explored. It's all supported with interviews and a sprinkling of clips from movies and television.

The movie is an attempt to tell the history of chess, in general, and the world champions, in particular. The focus is on two players: Victor Korchnoi and Anatoly Karpov. The movie shows the action at the Stratham tournament in Lone Pine, California, where Korchnoi is competing; at the IBM tournament in Amsterdam, where Karpov is competing; and at the 1981 World Championship in Merano, where Korchnoi is challenging Karpov.

Along the way, the movie tries to explain about the chess players' world. The stories of many world champions are reviewed; Reuben Fine makes psychiatric observations; and grandmasters comment about how they feel playing the game and each other. The movie also examines the development of computer play.

Chess is a big topic. Presented with a western showdown between Korchnoi and Karpov, the viewer can be overwhelmed by the interesting background material and side topics. I think the filming of the chess tournaments and matches, and the interviews with the grandmasters, particularly Bobby Fischer, are the main attractions. The movie appears to me as an excuse to try to tie together the film clips. Nevertheless, the film clips are worth seeing, and the real chess fan should not miss this movie.

2002 Linares, Spain, Super Grandmaster Tournament

This will go down as one of the most watched tournaments in 2002. It is the second strongest tournament of the year, being a FIDE Category XX (Astana, Kazakhstan, is stronger). It started Feb. 22, and went to March 10. The line-up of players was awesome:

Kasparov Adams Anand

Ponomarev Ivanchuk Shirov Vallejo Pons

[Note : 1. Pictures from ChessBase Website ;
2. Ratings and rankings are from official FIDE Jan. 2 / 02
Rating list (doesn't include Wijk aan Zee, nor the WCC
Final)]

Though the line-up was stellar, the real draw was the unknown quantity, the new 2001/2 FIDE World Champion, ranked 7th, 18 year-old Ruslan Ponomarev. And in the other corner was the #1 ranked Garry Kasparov (who just happens to have won Linares 7 times : 1990, 1992, 1993, 1997, 1999, 2000, and last year). Not only that, but immediately after Ruslan won the FIDE crown, Kasparov regaled him as a light-weight, who would never hold his own against his peers in “ classic “ time control chess (not the speedy FIDE Game in 90 min., with 30 sec. increments from move 1). And, lo and behold, Linares was at “ classic “ time control. What was going to be proven at this super-tournament ??

Well, for starters, Garry Kasparov is without doubt still the man to beat. He finished first with 8/12 pts., not losing a single game. And he was a full 1.5 pts. ahead of the second-place finisher !! So does that put the boots to Ponomarev ?

Not really !! Who is clear second but Ruslan Ponomarev, the “ light-weight “ !! He scored 6.5/12 pts., and in his individual encounters with Kasparov, lost one, and drew one. But there is general agreement that Kasparov’s win was a fairly decisive one, but by no means a steam-roller !

The other main threat had thought to have been Viswanathan Anand, 2000 FIDE World Champion. But he played conservative, drawish chess (10 draws out of 12 games), and finished in a 3-way tie for third with 6/12 pts., with Vassily Ivanchuk (FIDE 2001/2 WCC Runner-Up) and Michael Adams.

So where does all this leave Vladimir Kramnik you ask ?? Well, right now, not playing, and nursing his 2000 BrainGamesNetwork World Championship (which he won by beating Kasparov in a match outside the auspices of FIDE).

When are we going to get these horses into the same race ??

1st 2002 NAO Chess Masters Tournament, Cannes, France (Category XVIII – 2678)

This was the strongest chess tournament ever held in France. It started Feb. 22, and finished March 3. It had many notables playing : Evgeny Breev (Russia) – 2707 (# 11), and recent winner of the strong January Corus Wijk aan Zee, Netherlands tournament; Anatoly Karpov (Russia) – 2693 (# 16), FIDE 12th W.C.; Alexander Morozovitch (Russia) – 2742 (# 5); Veselin Topalov (Bulgaria) – 2739 (# 6); Peter Leko (Hungary) – 2713 (# 10); Boris Gelfand (Israel) – 2703 (# 12); four strong French players, the strongest being Joel Lautier – 2687 (# 19); and one of the other French players is one of SCTCN&V’s “ terrible ’83 ’ers “, Etienne Bacrot – 2649 (# 41) (only 18 years old on Jan. 1, and an up and comer { our other two ’83 ’ers we picked to watch were Ruslan Ponomarev (!! good pick, eh ??) and Alexander Grischuk }),

Tied for first, with 6/9 pts., were Topalov and Gelfand (who, as we mentioned earlier, belonged to the same club as Nikolay Noritsyn did, when Nickolay lived in Israel). Five players tied for 3rd/7th : Bareev, Bacrot (we’re watching Etienne !), Karpov, Leko, and Fressinet, one of the 4 French players.

2002 Canadian Closed/Zonal

The Ontario Bursary tournament in Toronto for the Closed/Zonal, turned into a 4 game match between Yuri Ochkoos and Ted Kret, played March 2nd & 3rd. It was won by Yuri, and so OCA will be supporting him financially in his attendance at the

upcoming Canadian Closed / Zonal, in Richmond B.C., which starts next week, Thursday, March 21, with Rd. 1 at 3:00 PM, Pacific Time. The runner-up, Ted Kret, will also be attending. The action will be broadcast live by WorldChessNetwork. The software needed to follow the action can be downloaded free from the WCN website.

The 31 registered participants in the Closed at the date of going to press (Yuri is not yet formally registered) are :

We wish everyone “ good chess “, and we understand the conditions will be A-1 for this tournament, thanks to the fine efforts of the organizing team. The average rating for this Closed, so far, is 2299. We’ll have a full report in our Issue # 15 on April 1. If there is a play-off needed that day, then we will likely hold publishing that Issue, until we have the final results to give you.

SCC Special General Meeting of All Members – Thurs., March 21 @ 6:40 PM

SCC has suffered the slings and arrows of outrageous fortune since the amalgamation of the City of Toronto. Even before the high school cafeteria rates skyrocketed, the Wexford Collegiate Institute was randomly having to pull our permit, often at the last minute, sometimes when notice to members was hardly possible. Then when the hourly rental rate for the cafeteria went through the roof, we did find a home, thanks to the support of the Wexford Seniors Centre. But they sometimes had to cancel our room reservation for other activities. Then there was the flu quarantine, where we had to go back to the school, at the exorbitant rates, 'til the illness among the residents had run its course. And after being back in only a short while, the centre decided to renovate its basement rooms, and we were temporarily, we were told, evicted until the renovations would be finished. Again we had to revert to the high school, and cut our hours, and cancel our Sunday meetings, because of the financial burden. It's amazing SCC is still staggering forward, and doing it rather well we'd say.

Well, we may have found a reasonable new home, since it was starting to look like we might not be given back the renovated basement room in the seniors' building. But it is not perfect – but, then, what is in life ?? So come on Thursday and hear the details (we've already sent them on to our e-mail members; so make sure to tell members who are not on e-mail). We need to decide if we are going to move to the new location. We have it tentatively booked to start Thursday, April 11, if we decide to go for it ('til then, it's the Wexford Collegiate cafeteria, on our current schedule).

See you all there – COME AND VOTE – IT'S YOUR COMMUNITY NON-PROFIT CLUB !!
